Recommendation Letter

for Valeriia Nyshchenko

To whom it may concern,

I am writing to highly recommend Valeriia Nyshchenko for a software development position. I had an opportunity to mentor Valeriia at IT Step Academy for 2 years, and I am thoroughly impressed with her skills, dedication, and growth in the field.

Valeriia has exhibited a remarkable aptitude for programming. She adeptly grasped new information quickly and efficiently. She has proved to be proactive, clever and responsible. She actively engaged in class discussions, collaborated effectively with her colleges, and approached problem-solving with creativity and enthusiasm. Beyond technical skills, Valeriia has excellent communication and teamwork abilities.

One of Valeria's outstanding qualities is her commitment to continuous learning. She not only successfully completed all practical assignments but also constantly demonstrated initiative and proactively looked for additional challenges and explored advanced topics on her own.

I am confident that Valeriia's combination of technical proficiency, problem-solving skill, and dedication makes her a valuable asset to any software development team.

Sincerely,

Dmytro Chumak

Head of Software Development department

IT Step Academy
